	Examiner CUONG H. NGUYEN Dears on the cover sheet with S. (OR REMAINS) CLOSED in 18 (OR REMAI

DETAILED ACTION

- 1. This Office Action is the answer to the interview with applicant's representative on 9/15/05.
- 2. Claims 1-111 are pending.

Examiner's amendment

- 3. The authorization for this amendment was given by Mr. James A. D. White (Register # 43,985) on 9/15/2005. Should the changes be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The application has been agreed to amend as follows:
- Claims 39-74 are canceled.
- Claim 9 (page 4, lines 1-2 of the Amendment 8/26/2005), replace "for ordering multiple items defined by a user as a group using a client system, the method" with
 - -- of claim 1, further --

Allowable Subject Matter and Reason for Allowance

- 4. Independent claim 1 is allowable over closest available prior art of Robertson (US Pat. 6,609,106), or Veeneman et al. (US Pat. 5,774,874), because:
- Robertson is unrelated to any use of groups of multiple items <u>predefined by</u>
 users for using together. Robertson is directed to an online gift registry service in
 which a first user may specify items that can be individually selected by other users for
 purchase.
- Veeneman et al. do not teach that a customer must define a gift cluster to have multiple related items to be ordered together as a single group for a single price.

In contrast, independent claim 1 teaches that a user MUST define a gift cluster to have multiple related items to be ordered together as a single group for a single price.

5. Other claims allowable because they are dependent on allowed claim 1.

Conclusion

- 6. Claims 1-38, and 75-111 are patentable. Claims 75-111 are renumbered as claims 39-75.
- 7. These attached prior art have related subject matter to this pending application; however, they also do not disclose above allowance reason.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759. The examiner can normally be reached on 9:00 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THOMAS G. BLACK can be reached on 571-272-6956. The Rightfax number for the examiner where this application is assigned is 571-273-6759.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
